Course Title: Auto CAD 2D Essentials		Course Code : DS 107
Course Background/Summary : This course covers the introduction and understanding of basic design using AutoCAD software. At the end of this course, the participant should be able to design and construct a basic design by manipulating all commands applied in AutoCAD. It focuses mainly on the approach and understanding of design by command, by distinguishing different commands and functions of AutoCAD for designing 2D.		
Course Objectives: <ul style="list-style-type: none">• Describe the basic design of the AutoCAD software for implementing of 2D part design• To present drawing in 2D by AutoCAD software detail with dimension and standard design approach.		
Target Audience: <ul style="list-style-type: none">• Electricians, Technicians, Engineers, Instructors		
Course Duration:	Min:3 days, Max:5 days	
Course Contents :		
No	TOPICS	
1.	Introduction to AutoCAD	
2.	Work with Commands	
3.	Drawing Setup	
4.	Draw Objects	
5.	Precision Drawing	
6.	Make Modifications	
7.	Add Symbols and Hatches	
8.	Add Text and dimension to a Drawing	
9.	Create Layouts and Plots	
COURSE STRUCTURE:		
Practical :	80%	
Theory :	20%	

UniKL MSI can also customize existing short courses and develop new courses to meet your personal training needs and requirements. The course duration serves as a guideline for your reference.
